

INTEGRATIVE NEUROSCIENCE RESEARCH CENTER

Spring 2009 Seminar Series

- 
- February 24th** ***“Hypothalamic Mechanisms Underlying Feeding Behavior”***
SuJean Choi
Department of Biomedical Sciences
Marquette University
- March 17th** ***“Hand Function: Assessing the Complex Control of Finger Forces and Movements”***
Kevin Keenan, Ph.D.
Department of Human Movement Sciences
University of Wisconsin-Milwaukee
- March 31st** ***“Altered Activity of Mesolimbic Dopamine Pathways in Obese, Leptin-Deficient Mice”***
Aaron Roseberry, Ph.D.
Department of Biomedical Sciences
Marquette University
- April 7th** ***“Immune-Mediated Mechanisms of Neuronal Dysfunction:***
Bonnie Dittel, Ph.D.
Blood Research Institute of Wisconsin
- April 21st** ***“Neural Systems Controlling Memory and Emotion”***
Fred Helmstetter, Ph.D.
University of Wisconsin-Milwaukee
- May 19th** ***“The Role of Tissue-Type Plasminogen Activator in Rodent Motor Learning”***
Mark Basham, Ph.D.
Department of Psychology
Regis University

ALL SEMINARS WILL BE HELD IN :

Schroeder Complex Room 256 , 561 N. 15th Street from 3:30 – 4:30PM
